Projects

Express Note Taker

Note taker is an app that can be used to write and save notes with the use of Express.js back and saving and retrieving data from a JSON file and deployed on to Heroku.

HTML - CSS - JavaScript - Node.js - Express.js - JSON

Artist Master

An application designed to simply search certain musical artists and retrieve information such as artist's logo, biography, where the artist is from and any live events booked through ticket master.com.

HTML5 - CSS3 - JavaScript - jQuery - API

Stick it To 'Em

This app was designed to allow a user to interactively plan events as well as meetups together in the form of sticky notes. The user can then invite others and find similar events that fit their interest. A safe place where everyone can be friends and hangout!

HTML5 - CSS3 - JavaScript - Node.js - Express.js - MySQL - MVC

Education

February 2021 - July 2021

University of Denver / Full Stack Web Development

A 24-week bootcamp program focused on gaining technical programming skills for full stack development. Laying a strong foundation in coding and boosting performance with hands-on training in real-world applications.
